

Migrant Worker Family Relief Fund

Oasis

Dear all,
India needs your help today.

India is experiencing a catastrophic surge in COVID-19 cases. The infection rates are the highest ever seen, nearly triple 2020's peak. At the peak of the surge in May, daily new cases are expected to reach 500,000. Hospitals and ICUs are already operating at or over capacity.

The plight of India's migrant workers in the COVID-19 lockdown was highlighted on international news channels. Overnight migrant workers found themselves unable to work and not able to return to their villages. They are effectively trapped in migrant worker camps with no money, food, work or real chances of social distancing. **To prevent hunger and destitution in Bangalore's migrant communities, Oasis India plans to distribute essential food and provision to 4000 migrant workers and their families**

We are also responding to more than 10 community hubs across Mumbai red light areas, Chennai, Chittoor (AP) and Bangalore already. This project will provide basic food provisions for a family for 7-10 days, to prevent hunger and ill health. Your gift allows us to help families in need and to respond quickly when every minute counts.

Please make a compassionate emergency donation today to save lives and to support migrant workers and people in crisis in Bangalore, Mumbai and Chennai.

The Ration Kit will contain

Contents	Units
• Rice	10 kg
• Dals/ lentils	3 kg
• Edible oil	2 kg

NEED OF THE HOUR

**Emergency
COVID
Care Centre**

 **Bangalore**

In partnership with various community based fellowships, community Churches and individuals from NE Migrant community spearheaded under a Joint Covid Care team of KSO-Bangalore, we have set up home care and community care centre for COVID patients in Kothanur, Bangalore. This care centre can be availed by any COVID patient who is in need of oxygen before hospitalisation. We have a 12 member team with 7 staffs from the health care team (Nurses and medical practitioners) and volunteers to support the centre. At the centre, we have procured the below facilities for patient care.

- Oxygen Concentrators
- Digital BP apparatus and Pulse oximeters
- Emergency Medical Kits (For Nurse outreach)
- Oxygen face Masks/Nebulization Mask for front line workers and volunteer Nurses
- IV sets for patients
- Medical emergency kits

A NEW HUB. A NEW BEGINNING.

Oasis is now in Manipur! Thousands of marginalised tribal families in the hill districts of Manipur are caught in the web of illegal poppy (opium) farming resulting into further vulnerability to destruction of their lives security, livelihoods, and environment of the eco sensitive North East region. Children and women are displaced to deep forest/jungle for 4-6 months leaving their homes during seasons of sowing and harvesting of the poppy plants drastically affecting education of children and putting lives of girls and women at risks. We also need to understand that poppy cultivation is illegal under the Narcotic Drugs and Psychotropic Substance Act, 1985 and the simple reason villagers have taken to poppy farming is because of poverty.

We are committed to building sustainable livelihood, access to education, health and governance in 10 villages by imparting training in alternative skills, self-help groups etc and by fostering children's holistic development through education interventions, awareness and health care. This project will committedly work with farmers families to reduce 25% of their dependency of poppy money through provision of children's education and livelihood inputs.
